HAND BOOK  
OF  
RAILWAY DISTANCES.

—

REVISED EDITION.

# Wale Insurance Company

ESTABLISHED 1807.

FOR LIVES ONLY.

79, Pall Mall, London.

## Directors.

CHARLES BISCHOFF, Esq., *Chairman.*

THOMAS BODDINGTON, Esq., *Deputy-Chairman.*

CHARLES CHATFIELD, Esq.

SIR J. BULLER EAST, Bart., D.C.L.

ROBERT ALEX. GRAY, Esq.

WILLIAM A. GUY, M.D., F.R.S.

CHARLES JELlicoe, Esq.

RALPH LUDLOW LOPES, Esq.

JAMES MURRAY, Esq., C.B., F.R.G.S.

PHILIP ROSE, Esq.

GEORGE RUSSELL, Esq.

ADMIRAL TINDAL.

## Auditors.

HENRY ROSE, Esq.

WM. R. BARKER, Esq.

## Medical Officers.

JOHN W. OGLE, M.D.

WILLIAM CHOLMELEY, M.D.

## Actuary and Secretary.

GEORGE HUMPHREYS, Esq., M.A.

The number of the Company's Policies at the present time is about SIXTEEN THOUSAND.

The total amount assured is upwards of **ELEVEN MILLIONS**, and the Annual Premiums amount to **£338,129**.

At the last Quinquennial Investigation the Surplus, after making ample provision for all Claims thereafter becoming payable under the then existing Contracts, was found to be **£847,570**. Of this sum **£184,654** was set aside for distribution, by way of Bonus, amongst the Share and Policy-holders. The remainder—namely, **£662,916**, was reserved for future Bonuses, Expenses, and other Contingencies.

The Divisions of Surplus are quinquennial, and the whole Surplus (less twenty per cent. only) is distributed amongst the participating Policy-holders.

*The Annual Reports of the Company's state and progress, Prospectuses, and Forms, may be had, or will be sent, Post-free, on application at the Office, or to any of the Company's Agents.*

## HAND BOOK OF RAILWAY DISTANCES.

*Compiled by direction of the Secretary of State for War.*

---

### EXPLANATION.

The object of this book is to place in the hands of all concerned in the movement of troops, and others, a ready means of ascertaining the correct railway distance from any one station to another in Ireland, and also the *route* by which to proceed.

A few words of explanation will show the plan upon which the book has been constructed.

Certain towns possessing railway stations (comprising garrison, county, and other towns, and principal junctions, which by their positions help the object in view), have been selected, and, for purposes of distinction, are denominated **PRINCIPAL STATIONS** (*see* Index). These principal stations have been alphabetically arranged as, and dealt with under, separate headings. A reference to any one of them will give at a glance the exact distance therefrom to every other.

All other stations (called **INTERMEDIATE**) have no separate headings, but appear in their alphabetical order under the headings of the nearest principal stations, as, for instance, all stations between Castlereagh and Roscommon (Principal Stations) are given both under Roscommon and Castlereagh. The result is that every railway station in Ireland is included in the book either as a principal or intermediate station.

By this method the entire railway system of Ireland is at once connected, north, south, east, and west.

The only point to be kept in view is the distinction between principal and intermediate stations, and as one is distinguished from the other in the index given at the commencement of the work the difference can always be ascertained.

An example or two will show the working of the plan.

#### *Example 1.*

Distance required. Castlereagh to Roscommon:—

Both of these are principal stations. Refer to	
Index, and they will be found, both at pages	
29 and 104, under each of which headings the	Miles.
distance is given at a glance     -     -     -     -	16½

*Example 2.*

Distance required. Donamon to Cork :—

Donamon is an intermediate and Cork is a principal station. Refer to Index, where Donamon is shown as at pages 30 and 104, under the respective headings of Castlereagh (northward of it) and Roscommon (southward of it), the two nearest principal stations. As Cork is southward of Donamon, the required distance must be ascertained under Roscommon at page 104, viz. :—

	Miles.
Donamon to Roscommon - - - -	$5\frac{3}{4}$
Roscommon to Cork - - - -	$180\frac{3}{4}$
Total - - -	$186\frac{1}{2}$

Distances northward of Donamon must be ascertained under Castlereagh at page 30, viz. :—

Distance required. Donamon to Westport :—

Donamon to Castlereagh - - - -	$10\frac{3}{4}$
Castlereagh to Westport - - - -	$48\frac{1}{2}$
Total - - -	$59\frac{1}{4}$

A railway map of Ireland is attached, showing all principal stations in large, and all intermediate stations in small type, and which will be found of great assistance when distances to and from *intermediate* stations are required.

*Example 3.*

Distance required. Donamon to Portarlinton :—

Both of these are intermediate stations. A reference to the Index shows Donamon at page 104, and Portarlinton at page 122. Page 104 gives the distance :—

Donamon to Roscommon - - - -	$5\frac{3}{4}$
Roscommon to Tullamore - - - -	$40\frac{3}{4}$
and page 122 the distance between	
Tullamore and Portarlinton - - - -	$16\frac{1}{4}$
Total - - -	$62\frac{3}{4}$

*Example 4.*

Distance required. Grange to Kilsheelan :—

Both of these are also intermediate stations, but on the same line, no principal station *intervening*. Refer to Index for either. Take page 123 for Kilsheelan :—

	Miles.
Waterford to Kilsheelan - - - -	22
<i>Deduct</i> Waterford to Grange - - - -	$7\frac{1}{4}$
Distance Kilsheelan to Grange - -	<u><math>14\frac{3}{4}</math></u>

Those journeys that extend over more than one line of railway have the exact distance travelled over *on each line* shown in small print (these distances so printed are designated PART DISTANCES), thereby indicating the route by which to proceed.

These part distances are given in miles and chains as officially published by the Irish Railway Clearing House, but in adding the total distance the number of chains have been brought into miles at the following rate, viz. :—

	Miles.
1 and up to 20 - - - -	$\frac{1}{4}$
21 „ 40 - - - -	$\frac{1}{2}$
41 and under 80 - - - -	$\frac{3}{4}$

It should be distinctly understood that the routes herein laid down are the nearest, except in a very few instances where, the additional distance being under five miles, it would be an obvious advantage to avoid change. The book has, however, been so framed as to show the mileage of *any* other route that may be desired.

When demanded, fractions of a mile in each company's local distance, and in each company's proportion of through distances, should be paid for as miles.

## NAMES OF RAILWAYS

Referred to by their respective Numbers in the succeeding Pages.

1 {	BELFAST AND COUNTY DOWN:— Downpatrick, Dundrum, and Newcastle.	13 {	IRISH NORTH-WESTERN:— Clones and Cavan. Enniskillen, Bundoran and Sligo.
2 {	BELFAST AND NORTHERN COUNTIES:— Carrickfergus and Larne.	14	LONDONDERRY AND LOUGH SWILLY.
3	BELFAST, HOLYWOOD, AND BANGOR.	15 {	MIDLAND GREAT WESTERN:— Dublin and Meath. Navan and Kingscourt.
4 {	CORK AND BANDON:— Cork and Kinsale Junction.	16	NEWRY AND ARMAGH.
5	CORK AND MACROOM.	17	NEWRY, WARRENPOINT, AND ROSTREVOR.
6	CORK, BLACKROCK, AND PAS- SAGE.	18 {	ULSTER:— Banbridge, Lisburn, and Belfast. Dublin and Antrim Junction. Portadown, Dungannon and Omagh Junction.
7 {	DUBLIN, AND BELFAST JUNC- TION:— Banbridge Junction.	19 {	WATERFORD AND LIMERICK:— Athenry and Ennis Junction. Athenry and Tuam. Rathkeale and Newcastle Junction.
8	DUBLIN AND DROGHEDA.	20 {	WATERFORD AND CENTRAL IRELAND (late Waterford and Kilkenny):— Kilkenny Junction.
9	DUBLIN, WICKLOW, AND WEX- FORD.	21	WATERFORD, NEW ROSS, AND WEXFORD JUNCTION.
10	DUNDALK AND GREENORE.	22	WATERFORD AND TRAMORE.
11	FINN VALLEY.	23	WEST CORK.
12 {	GREAT SOUTHERN AND WESTERN:— Fermoy and Lismore. Parsonstown and Portumna Bridge.		

# INDEX

TO

## RAILWAY STATIONS.

NOTE.—The Stations shown in large type are denominated *Principal Stations*, the others are called *Intermediate Stations*.

## NEWRY. (N. &amp; A. 16. Edward Street.)

There are three stations in Newry, viz., Albert Basin, Dublin Bridge, and Edward Street, and the distances in connection with the last only are shown herein. The distances in connection with Albert Basin and Dublin Bridge will be found by adding 56 and 40 chains respectively to the Edward Street distances as printed.

The distances to and from the town of NEWRY herein shown are those *via* the Newry and Armagh line; but the quickest way of reaching the town is to leave the train at the Bessbrook and Newry station of the Dublin and Belfast Railway (see under Dundalk and Portadown Junction), the distance from which to either the town or barracks being only 1½ miles by road.
